### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the instant claims are allowable over the prior art of record, because the prior art is silent to a sealing arrangement for a fuel cell comprising a gasket disposed between a membrane electrode assembly and a separator plate and having an outer perimeter portion defining an opening which receives a gas diffusion layer, wherein said gasket includes at least one first tab portion extending into the opening between the gas diffusion layer and the separator plate.

The prior art, such as Bonk et al. U.S. Patent 6,399,234, teaches a gasket seal 106 disposed between a separator plate 108 and membrane electrode assembly 110 of adjacent cells; wherein the gasket contains ridges that increase the sealing pressures. The reference is silent to the gasket including at least one first tab portion extending into the opening between the gas diffusion layer and the separator plate. Therefore, the instant claims are patentably distinct from Bonk.

### *Conclusion*

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
